I met Lisa over a friend's wedding last Spring, and hired her as my wedding planner in October. This is the best decision I've ever made for my wedding! Lisa is not only super on top of every single meetings, but also very responsive. I was even sometimes able to reach out to her at midnight. Wedding planning can be very stressful and frustrating when dealing with a full time job and multiple vendors at the same time. Lisa made it super easy for me by creating a detailed deadline with specific dates and count-downs, she also kept me posted every step of the way at each important date and meeting. I remembered I've encountered several conflicts with vendor's scheduling and payment issues, Lisa showed incredible people skills and efficient communication as a third party professional between me and my vendors that made sure all my needs are met and always fought for my greatest benefits! I can't imagine how was I able to hold a 75 ppl wedding without her! Super on task, detail-oriented, awesome communication skills and most importantly caring, Lisa is a fabulous listener she always placed my needs first, her team is also amazing and professional! She recommend me awesome DJ, photographer and make-up artist that made my life a lot easier and this wedding a life-time great memory! Wouldn't be able to achieve all these without Lisa and her team's support!! Highly recommend to everyone

It's been a fantastic experience working with Lisa to plan our wedding. She is detail oriented, patient and on task. She was on our side every step of the way, whenever we had questions. Our wedding came out perfect thanks to her dedication and efforts. Would highly recommend her to plan out your big day.
